Professional work

Apr 2025 - Present

Current

Product Data Analyst

eDreams ODIGEO — Experiments & Insights Team, Customer Experience Vertical

A/B testing, GA4 tracking, exploratory analysis and customer journey metrics. BigQuery, Looker & Python.

- Built **AI-enabled analytics workflows** and self-service tools including **CX Gemini**, **MicroStrategy AI Narratives**, a **Paired Pre/Post Testing Tool**, a **CX Exploratory Analysis Tool** and **Event Tracking Governance MVPs**.
- Help lead **AI-enabled analyst workflows** and coordinate a **120+ analyst internal community** around analytics, statistics, Python, automation and AI.
- eDO Global Awards 2026 finalist** for innovation and impact in AI-enabled analytics workflows and internal tooling.

Sep 2025 - Present

Current

Product Manager & UI Developer

Gatoli - Game Studio Side Project / Barcelona, Spain

Game studio side project. Set up weekly meetings, **Agile-style workflows** and **ClickUp** ticket management while contributing to feature definition, player flows, **Figma** prototypes and **Unity/C#** implementation.

Feb 2023 - Apr 2025

Game Developer - Unity C# Developer

DRACMA 3D SL - Barcelona, Spain

Developed **AR industrial applications**, **serious games** and interactive experiences with **Unity/C#**, while also building behavior tracking, backend systems, CMS tools and reporting workflows with **Python**, **PostgreSQL**, **PHP**, **SQL** and **Power BI** to support product and client decisions.

Oct 2022 - Feb 2023

Unreal Programmer VR/AR/MR - Internship

SEAT, S.A.

2019 - 2022

Earlier Product, Game Development and Research Experience

Game/app prototypes, playtesting and quantitative psychology research

Academic path

Sept 2021 - June 2025

✓

Bachelor's degrees in Video Game Design and Development

Centre de la Imatge i la Tecnologia Multimedia | CITM (UPC)

- Average mark: 8.8/10.** Honors in 12 modules.
- Bachelor's thesis:** therapeutic videogame developed with **Pallapupas** to help reduce preoperative anxiety in pediatric patients.

Sept 2019 - June 2020

✓

Bachelor's degree in Applied Data Science

Universitat Oberta de Catalunya

- First year completed.
- Honors in Introduction to Data Science.

Sept 2017 - June 2021

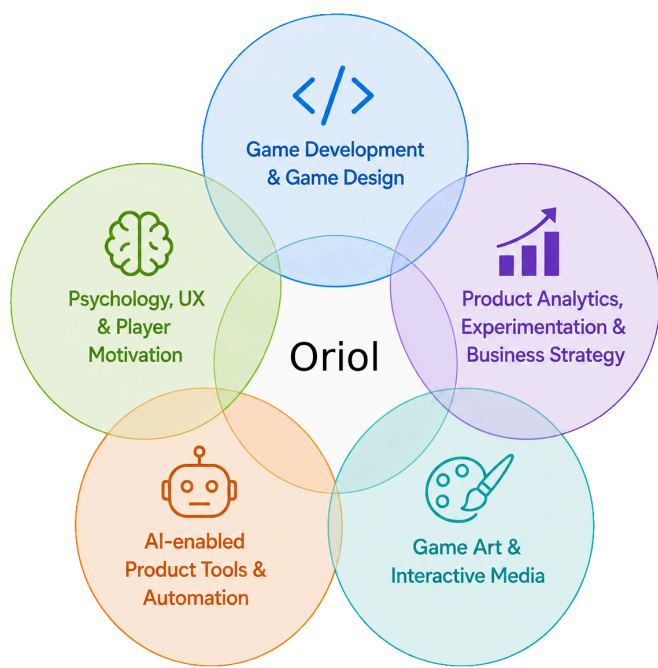

✓

Bachelor's degree in Psychology, Extraordinary Award

Universitat Autònoma de Barcelona

- Average mark: 8.6/10.** Honors in 10 modules.
- Special award** for the Bachelor's Degree in Psychology.
- Bachelor's thesis:** Predicting Workplace Motivation Levels Using Linear Regression - A **Self-Determination Theory** Approach.

Skills

Game Development & Game Design

- **Bachelor's Degree** in Computer Science and Video Game Development.
- **2+ years** working as a **Unity/C# Developer**, plus **Unreal/C++**, serious games and **AR/VR/MR** experience.
- **Therapeutic videogame thesis** with **Pallapupas** and multiple game/app prototypes.

Psychology, UX & Player Motivation

- **Psychology degree** with **Extraordinary Award**.
- **Self-Determination Theory** thesis and **Flow Theory** research experience.
- Focus on **motivation**, autonomy, competence, relatedness, frustration and **player engagement**.

AI-enabled Product Tools & Automation

- **Vertex AI/Gemini**, AI-assisted reporting and scalable analyst workflows.
- **Self-service analytics tools**, event tracking governance and semantic search concepts.
- Applied **AI** to reduce **time-to-insight** and standardize product reporting.

Product Analytics, Experimentation & Business Strategy

- **Product Data Analyst** in eDreams ODIGEO's **Experiments & Insights** team.
- **A/B testing**, **GA4 tracking**, **BigQuery**, customer journeys, funnel analysis and quasi-experiments.
- Strong focus on **decision quality**, **product learning**, **business strategy** and measurable impact.

Game Art & Interactive Media

- Academic background in **3D modelling**, **concept art** and visual production.
- **Interactive 3D**, **AR/VR/MR** experience with attention to visual clarity and immersion.
- Comfortable collaborating across **creative and technical constraints**.

Selected product, analytics and game projects

Therapeutic Videogame for Pediatric Preoperative Anxiety

PALLAPUPAS

Bachelor's Thesis project developed in collaboration with **Pallapupas**. Designed and developed a **therapeutic videogame** aimed at helping reduce preoperative anxiety in pediatric patients, combining **game design**, psychology, emotional regulation, **Unity** development and user-centered thinking.

CX Gemini - AI-assisted A/B Test Reporting

EDREAMS ODIGEO

AI-enabled analytics workflow connected to **BigQuery**, **Google Sheets**, **Apps Script** and **Vertex AI/Gemini** to compute experiment KPIs and generate consistent, ready-to-share HTML narratives in seconds. The solution was later adapted for **MicroStrategy Extractions**, extending its impact beyond CX.

MicroStrategy Extractions AI Narratives

EDREAMS ODIGEO

Extended the **Gemini-based narrative generation** approach to **MicroStrategy Extractions**, helping standardize and accelerate **A/B report interpretation** across teams and verticals using those reporting workflows.

CX Exploratory Analysis Tool

EDREAMS ODIGEO

Self-service Google Sheets, Apps Script and BigQuery tool that generates optimized dynamic SQL and helps stakeholders answer recurring product/CX questions without manual analyst dependency.

Event Tracking Search & Governance

EDREAMS ODIGEO

Internal tools and MVPs using React/JavaScript, BigQuery, Vertex AI Search and AI search concepts to move fragmented tracking documentation toward governed, searchable and queryable event data.
